

EVERY GAUGE. UNDER CONTROL.

Gauge & calibration management

A clear register. Connected evidence.

A practical next step.

Know what you have, who is responsible and what is due. Keep certificates, reminders and service requests connected to your instruments.

FROM GAUGE TO NEXT CALIBRATION

- 1 Register and organise
- 2 Plan and book the work
- 3 Record the evidence

Illustrative product view

GAUGE CONTROL

Search and organise instruments, sets, departments and owners. Track lifecycle and calibration status.

SMART REMINDERS

Advance, urgent and overdue email reminders, with PDF registers scoped to the responsible people.

ACCESS & APPROVALS

Give teams the right visibility. Use direct, shared or lab-reviewed changes, with retained history.

CERTIFICATE HISTORY

Keep available certificates and evidence from different providers. Download individual files or selected ZIP bundles.

CALIBRATION & REPAIR BOOKINGS

Request service for one instrument or a group. Track lab acceptance or customer-managed certificate progress.

REPORTS & LAB CONNECTIONS

Export filtered registers to Excel or Print / PDF. Scope additional laboratory and system integrations as needed.

Let's put your gauges in order.

Explore the platform, your workflow and your 60-day trial.
